2005		 An aerial photograph showing a rural landscape with a red boundary line. A large area in the lower half of the image is covered with a green overlay, which contains several small red squares. The landscape includes fields, a road, and some buildings.
2010		 An aerial photograph showing a rural landscape with a red boundary line. The landscape includes fields, a road, and some buildings. The red boundary line is clearly visible, enclosing a large area of the landscape.
2011		 An aerial photograph showing a rural landscape with a red boundary line. A large area in the lower half of the image is covered with a yellow overlay, which contains several small red squares. The landscape includes fields, a road, and some buildings.

2012		 An aerial photograph of a river and surrounding land. A red polygon boundary is drawn across the image, enclosing a large area. Various colored markers (blue, green, yellow, red) are placed along the boundary and within the enclosed area. The river flows from the top left towards the bottom right.
2013		 An aerial photograph of the same river area as in 2012, but with a blue tint overlay. The red polygon boundary and colored markers are still visible. The river's position and flow direction are consistent with the previous year.
2014		 An aerial photograph of the same river area, overlaid with a red tint. The red polygon boundary and colored markers are clearly visible. The river's position and flow direction are consistent with the previous years.
